FROWN UPON DEBS' PLAN

Local Labor Leaders Oppose a Sympathetic Strike.

NOTHING TO BE GAINED

Reforms Cannot Be Accomplished by the Means Suggested-Education the Only Salvation of the Industrial Slave-Miners Will Win if Given Financial Assistance.

The last utterances of Eugene V. Debs. he leader of the Social Democracy, in reference to the condition of the striking coal miners, but more especially his expressions in regard to what will be the utcome of the conference of the labor leaders to be held at St. Louis tomorrow were the subject of general discussion among the local leaders yesterday. The leaders of both factions, however, take ation and the surrounding circumstances than does the great leader in the West.

While on the whole they are of the opin ion that the conference will be a most important one, still none of them looks for ward to any startling results.

Mr Milford Spoin, the president of the Central Labor Union, made up wholly of presentatives from trades union organ rations, differs somewhat with Mr. Debs s to the nethods of attaining the industrial of the country. He said:

"I do not anticipate that the St. Louis neeting will do anything to shock the people into a remization of their duty to the starving miners. It is to be hoped that at this meeting wise counsel will prevail and that no measure will be advised which would be impossible to attain, or which would result in intensifying the bad feeling between the mine owners and the miners. That conditions which likel our Christianity and shame our civilization have long existed in the mining regions has been known by all men who have given any thought to the prevailing industrial conditions So long as these conditions remain industrial slavery will exist and the master and the slave will be at war. A condition of peace is but an armed trave, for the conflict seems irrepressible, and will only end when the cause is removed.

"This cannot be done by any shocking process, but by the means of education When all men will recognize practically the unvelfish and greed-purged principle in volved in 'mine and thine' the labor problem will be solved. In the meantime the helpless victims to a diseased condition should be relieved, and I presume some eans will be adopted at the meetmg next Monday.

What the miners need first is sufficient provisions and money to keep them clothed and fed. If this is supplied them, they cannot be driven into the mines under the lash of starvation. Every strike is a contest between the stomach of the inborer and the dallar of the employer, and the stomach generally gets empty before the dollars are exhausted. No striker ever returned to work, defeated, with a full domnet; so, in this strike, if the miners ere supplied from the abundance in the land, they would succeed.

"I don't know why a sympathetic strike throughout the country would help the situation the mining regions. If it would result as Mr. Debs anticipated, in paralyzing the country, would the miners be in a better condition or would the mine-owners yield to their demands?

'The coal barons have a fee simple title to the land, the means by which a quarter of a million of miners and their families live, and they are in the position to starve the miner and rob the consumer both are dependent upon them—and they can complacently tell the public to get paralyzed and be d -- d.

"A combination of these owners of the coal lands of the country with the transportation corporations absolutely controlling a product which is necessary for the very for us to go back on our signed contract life of the people, can issue an injunction more far reaching in its effects than all the Jacksons in the country.

"The injunction business has been very much over-lone, and I presume there is not a self-respecting citizen in the country who does not regard this prostitution of the courts with supreme disgust. We are having too much of this injunction nostrons and like an overdose of the poisonous boluses of the quack it only aggravates the disease that it is intended to cure."

While the strike among the miners was mstituted by the United Coal Workers' Union, a body affiliated with the American Federation of Labor, and has been conducted along lines mapped out by that body, the Knights of Labor are lending aid to the miners and contribute to the ultimate suc cess of the miners. The leaders of both these great organizations, Samuel Compers and James R. Sovereign, and the lesser lights, Lave conferred together as to the best road to success. The lion and the lamb have lain down together, so to speak, and organized labor of the United States are

noving to the support of the starving miners At the last meeting of District Assembly No. 96, Knights of Labor, the situation was discussed at length, and finding that it would be impossible to send a delegate to the St. Louis conference, it was decided to express the sentiment of the assembly in the following resolutions, which will be forwarded to Mr. Sovereign at the con-

The resolutions are:

Resolved, That District Assembly, No. 66, Knights of Labor, denounces the few and unscrupulous men who have secured by questionable methods a monopoly on land and its natural products, and thereby robbing labor of 1ts rights.

Resolved. That we demand a restoration Resolved, That we demand a restoration of the rights bequeathed the citizens of the United States, and of which they have been robbed by the power vested in the plutocratic being who winns at justice and oppresses labor with a heavy hand. Resolved, That we extend to the miners of this country who are now battling for the rights guaranteed by the Constitution of the United States, that support which is so essential to success in such contests. is so essential to success in such contests as are now on in the coal mining States of the United States.

Mr. A. M. Lawson, master workman of District Assembly No. 66, K. of L., in speaking of the situation in connection with the prophecy of Mr. Debs, said he was opposed to sympathetic strikes on general principles, and at their best they were the worst for the working class of people. However, when the courts refuse the common people the right of free speech and peacable assembly the masses, he aid, should rise up and demand the enforcement of that God-given privilege thich we have inherited from our fore

fathers. WASHINGTON LAW AND CLAIMS COMPANY Samuel Con. pers, president of the American Federation of Labor, declined to dis cuss Mr. Debs' proposition.

VIRGINIA FRITTER FOUND.

Missing Girl Finds a Comfortable Home With Supt. Lapham.

Through the efforts of The Times and Mr. John Howser, a ticket broker, at No. 631 Fennsylvania avenue northwest, Virginia Fritter, the young girl who has been missing since August 19, has been found and the police and her father advised of her whereabouts.

On the day of her disappearance from Mr. Morton's home, at No. 1009 Massachusetts avenue, where she had been for two weeks, Virginia, sad, howeless and weary, wandered down to Second and B streets southwest, not knowing where she was going It was the middle of the afternoon when Supt. Lanham, coming out of his office, found the child setting on the curbstone. He accosted her and by degrees learned her sad story and becamthe good Samaritan, who took her in and

The child was shabbily dressed, and carried in her hand a 5 cent piece and three small bananas. She said she had been illtreated at Mr. Morton's home and compelled to work too hard and during long veary hours, so that she had finally decided to leave and go elsewhere. She is but fourteen years old and knows nothing of the city. Fortunately she fell in good hands, for Mr. Lanham, moved to pity by her story, took her to his own home at Lanbam Station, Md., and there provided her with new clothing and treated

her as he would his own daughter. Virginia said she was going to write to her father, but day after day she neglected it, for it was a difficult task for her to undertake. Mr. Lanham had heard no inquiry about the girl until seen by a Times reporter yesterday, and the

She is happy in her new home and desired to remain, though no more so than Mr. Lanham, his wife and daughters are to have ber, as they have become much attached to the little stranger.

A Times reporter, who yesterday located the girl, informed Detectives Gallagher and Boardman, and Mr. Fritter was communicated with in repard to his child.

SUNDAY AT GLEN ECHO.

Inviting Program of Entertainment for This Afternoon and Evening.

Manager Middleton will present at Glen Echo-pa-the-Potemac this afternoon and evening the Fadettes in grand con-cert and Prof. Leo Wheat in organ and riano recital. Monday evening, in the Immense amphitheater, an entire change of bill will take place. The Fadettes, givthey will be substituted by Haley's super nellitary band of twenty-five pieces for the

balance of the season.

Among the vaudeville features that will beintroduced will be Koppe, the sensational club juggler; Hart and Irving, transformation artists and mystifiers and other vaudeville attractions.

The crowds are constantly lacreasing in numbers at this beautiful resort, and many are the expressions of gratification and surprise complimentary to the management. Caroline B. Nichols, the director of the Fadettes, was, on last Friday evening, presented with a magnificent sterling silver director's baton by a gentleman highly connected in legation circles here. The doner, in a letter accompanying it, expressed his desire to pay tribute to the excellent music rendered by the orchestra under the leadership of the present con ductor.

A MATTER FOR THE COURTS.

Commissioners Fower ess to Reseln 1 the Contagious Ward Contract.

Commissioner Ross yesterday stated to a Times reporter, speaking about the protests entered against the placing of the isolating ward at Providence Hospital, that the matter has now passed out of the Commission ers' hands

We have already signed a contract with the staters who have the direction of Providence Hospital," he said, "and even should We so desire, we could not rescind our action. Of course, We are sorry that the site which we have chosen is not entirely vatisfactory to everyone, but the award was made only after mature deliberation and was what we considered the best possible under existing circumstances. without involving the District in a possible lawsuit, so that it is utterly useless for citizens to protest to us. The only way to obtain an abrogation of the agree

ment is through the law courts." It is highly probable, indeed, that the whole matter will eventually be brought up before the courts. The local branches of the American Protective Association, who are greatly opposed on sectarian grounds to giving the ward to the hospital, claim that the award is a violation of the first amendment to the Constitution, and will make a

test of it on that point. The residents of the neighborhood also threaten to bring suit against the District for alleged damage done their properties by the locating of the isolating ward. In these suits also will probably be involved a decision upon the legality of the award. Altogether the matter promises a very warm fight in the near future.

THE UNION VETERAN LEGION. Annual Encampment to Be Held at Columbus, Ohio.

The twelfth national encampment of the Union Veteran Legion will be held at Columbus. Ohio, September 21 to 24. The Society of the Army of the Cumberland will also hold its annual meeting at the same place and dates, making Ohio's capital doubly attractive to the visiting veter

At its regular assembly last Thursday evening, Encampment No. 23, Union Vet eran Legion, elected the following delegates and alternates: J. B. Thatcher, O. D. Thatcher, S. R. Whitney, Ira Brashears, and W. H. H. Price, delegates, and Cyrus Bussey, H. R. Tappan, T. T. Whitcomb. Jacob Persinger, and T. Spencer, alternates.

The Counterfeit Bond Plates. Becretary Gage has caused to be removed from the Bureau of Engraving to the se cret service office the three plates from which the excellent \$1,000 7-30 counterfeit bonds were made. The plates had been in the Bureau of Engraving since 1881. They are the most perfect counter-felts ever made in this country, and were fully described in The Times a few days

Fire Insurance Company Examined. Fire Insurance Company Examined.

The insurance departments of Wisconsin and Illinois have completed the examination of the Northwestern National Insurance Company, of Milwaukee, Wis., and report as follows: Cash assets, \$2,269,582.46; netsurplus, topolicy holders, \$1,269,754.78. In solarge a list of mortgages there was no interest past due, and not a single foreclosure proceeding. The property securing the mortgages was found to be valued at 100 per centimore than the amount loaned thereon. The bond investments could hardiy be improved upon. The report also ly be improved upon. The report als shows an increase of the net surplus of \$42,061.91 over that given in the com-pany's statement of July 1, 1897, and com-

CATARRH. USED EXTERNALLY IT CURES

Olfactory organ which contains the Nerves of Smell. This organ is a long ribbon-like membrane and hangs from the roof of the Nassi passage in folds, as seen in Fig. 3. When this condition becomes chronic, or permanent, it is called CATARRM. The folds become swollen into a solid mass, so the air in breathing cannot circulate between them; hence the loss of smell. The Catarrhal microbe soon makes its amerannes, causing a

cannot circulate between them; hence the loss of smell. The Catarrhal microbe soon makes its appearance, causing a multitude of small ulcers between these folds. The pus from these ulcers is very poisenous and soon impregnates the works show cases where the tossils have become a corrupt mass of ulcers. It not infrequently involves the whole bronchial passage to the lungs, causing consumption and death. It will be seen that nothing can radically cure Catarrh which does not reach to the seat of the disease between these folds of the Olfactory organ, and cleause and heal these ulcers. BRAZILIAN BALM is the only known remedy in nature that will necomplish this result. It will heal any old sore. Smulf as colution of the Balm and warm water, as strong as you can bear, up the noze, from the hand or through a Nasai Douche, as in Fig. 1. Then, as water will not run up hill, hold the head down, as in Fig. 2, giving it time to work in between the folds. Do this three or four times a day. You will soon experience relief, and if faithful, in a few weeks the folds will be opened, as the swelling gone, the ulcers will be healed and the sense of smell and taste restored. A So cent bottle contains two weeks treatment, and the \$1.00 bottle six weeks treatment. Catarrh never cures itself. Brazilian Falm is gnaranteed to cure Hay Feyer. Gives surprising relief in Consumption and often cures.

Price Fifty Cents and One Dollar per Bottle.
The Fifty Cent Bottle contains One Hundred Doses.

E. F. JACKSON & COMPANY, Propr's,
